SHIVAM GUPTA

Kathmandu, Nepal

Summary

Ambitious Computer Engineering student passionate about front-end and React development, with experience in full-stack projects using the MERN stack. Proficient in JavaScript, React.js, HTML, and CSS. Built user-focused web solutions like a job search platform and a matchmaking app. Skilled in GitHub and committed to delivering innovative digital solutions. Certified AWS Cloud Practitioner with foundational knowledge of cloud concepts, services, and best practices.

Education

Lalitpur Engineering College

2021 - 2025

Lalitpur , Nepal

Bachelor in Computer Engineering

Relevant Coursework

- Data Structures
- Software Methodology
- Algorithms Analysis
- Database Management
- Artificial Intelligence
- Systems Programming
- Internet Technology
- Computer Architecture

Experience

Frontend Developer Intern

 $\mathbf{Feb}\ \mathbf{2025} - \mathbf{Apr}\ \mathbf{2025}$

Remote

- E-trend Nepal
 - Worked on the front-end of a live e-commerce platform using React.js and Tailwind CSS.
 - $\bullet\,$ Built responsive UI components and focused on creating a smooth, user-friendly experience.
 - Collaborated with team members using Git for version control and regular updates.

Projects

$\textbf{E-Commerce Web app} \mid \textit{HTML}, \textit{CSS}, \textit{Javascript}, \textit{React}$

Feb 2025

- Built a fully functional and responsive e-Clothes web application entirely using React.
- Styled the UI using Tailwind CSS and Flowbite to provide a clean and modern shopping experience.
- Implemented Formik for efficient and validated form handling across the site.
- Utilized all core React features including hooks (useState, useEffect, useContext, etc.) and Redux for global state management.

Real Estate Website | React.is. Tailwind CSS

Jan 2025

- Developed a fully responsive Real Estate website using React.js and Tailwind CSS, optimized for all screen sizes.
- Implemented React hooks such as useState and useEffect to manage state and side effects effectively.
- Focused on clean UI/UX and modern layouts to ensure a smooth and intuitive user experience.

Job Search Web app | HTML, CSS, React.js, Node.js, MongoDB

July 2023

- Built a fully functional job search web application using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented user authentication (login/signup) and profile management features for improved security and user experience.
- Integrated RESTful APIs to provide job search functionality with filtering and sorting features based on user preferences.
- Ensured responsive design for seamless mobile and desktop usage, improving user engagement and accessibility.

Jodi Finder | HTML, CSS, React.js, Node.js, MongoDB

May 2023

- Built a matchmaking platform using the MERN stack, connecting individuals based on shared interests.
- Developed an intelligent matching algorithm to suggest compatible users for better connections.
- Focused on crafting an easy-to-navigate, responsive interface for an optimal experience on all devices.

Technical Skills

Languages: JavaScript, C/C++, HTML/CSS ,Reactjs

Developer Tools: VS Code, Google collab

Databases:Mangodb, mySQL

Technologies/Frameworks: Vercel, AWS, GitHub, Latex
